- PaoloCremo

About me

I am a researcher with experience up to the Postdoctoral level, specialised in gravitational waves, with a strong background on data analysis. I have a passion for finance, technology, and continuous learning, complemented by a love for travel. I love tackling challenging problems and am now seeking to leverage my analytical skills and passion for innovation in a dynamic opportunity outside of academia, where I can combine my interests in finance and technology.

Skills

- Python - pandas, numpy, matplotlib, tensorflow, scikit-learn
- LaTeX
- Git
- HTML/CSS
- SQL
- Mathematica
- Linux
- Slurm - HTCondor

Languages

- Italian - Mother Tongue
- English - Fluent
- Spanish - Basics

Interests

- Technology
- Data Analysis
- Finance and Investments
- Sports, Books & Piano.

Work Experience

- 2022-2024 **PostDoc Researcher** UIB, Palma, Spain
Data Scientist. Member of LIGO collaboration. I developed tools to analyze Gravitational Waves data, focusing on finding events that are bent or magnified by massive objects (i.e. lensing). I also worked on a project to organize and automate the process of detecting these lensed events more efficiently.
- 2018 **Internship as Data Scientist** DBA Group, Italy
I worked in a team focused on developing methods to record and analyse diverse datasets, ranging from meteorological to industrial data, using machine learning techniques to predict outcomes and improve data-driven decision-making

Education

- 2022 **Ph.D. in Physics** Szczecin, Poland
Gravitational lensing of Gravitational Waves
- 2017 **M.Sc. in Astronomy** Padova, Italy & Stockholm, Sweden
Thesis on lensing of gravitational waves done at Stockholm university
- 2015 **B.Sc. in Astronomy** Padova, Italy
Thesis on dark matter in spiral galaxies

Projects

- #personalfinance #appdevelop #sideprojects I'm developing a personalised mobile app to help manage personal finances. This includes creating a custom Python package to track expenses and investments. On the side, I'm also working on a fun project that lets control Spotify playlists (on GitHub @ PaoloCremo/spotify) and building a bot to send daily updates of new research papers from ArXiv based on topics of interest (on GitHub @ PaoloCremo/paperbot).
- #website I designed and coded my own website, where I keep my info, thoughts and different things.

Main Publications

- #6 Invariance transformations in wave-optics lensing: implications for gravitational-wave astrophysics and cosmology
- #5 Follow-up Analyses to the O3 LIGO-Virgo-KAGRA Lensing Searches
- #4 Characteristic features of Gravitational Wave lensing as probe of lens mass model
- #3 Breaking the mass-sheet degeneracy with gravitational wave interference in lensed events
- #2 High accuracy on H₀ measurements from gravitational wave lensing events
- #1 The lensing time delay between gravitational and electromagnetic waves

The complete list at inspirehep.net/authors/1859874

Mentions

- #2 Top ArXiv papers from week15, 2021 - S.Vagnozzi - Link to article
- #1 Constraining the Hubble Constant with Lensed Gravitational Wave Events, 2019 - K. Shin - Link to article

Conferences Presentations

- “Mass-Sheet Degeneracy in Gravitational Wave Lensing” @ NBI Strong Group seminar, 2023/12; LVK meeting, 2023/09
- “Wave Optics in Gravitational Wave Lensing” @ UBC Gravity seminar, 2023/09
- Divulgate talk on Dark matter @ YouTube, 2022/10
- Presented paper #3 @ GWverse, 2021/09; Gravitex 2021, 2021/08; COSMO '21, 2021/08; Amaldi 14, 2021/07 Cosmology from Home, 2021/07; Ibericos 2021/04
- Presented paper #2 @ Cosmic controversies, 2019/10
- Member of organizing committee @ The 6th Conference of the Polish Society on Relativity, 2019/09
